SENATOR WILLIS AT DONORA TONIGHT

Ohio Solon Will Address What Promises to Be One of the Largest Political Gatherings Ever Assembled in the Valley

LOCAL PEOPLE TO ATTEND

Senator Willis is in Washington today, and at noon hour was scheduled to address Kiwanis Club of That City—Senator is a Member

United States Senator Frank B. Willis of Ohio, will make an address at Donora this evening, going there under the auspices of the Republican National committee to urge the election of President Coolidge and a Republican congress to back him up. A number of Charleroi people will, it is said, attend the demonstration in Donora tonight, which promises to be one of the largest political outpourings ever assembling in the valley.

Senator Willis, it is said, is one of the orators of the Chautauqua platform and is well known to the educators of the country, which includes those of Washington county, as he has appeared at teachers' institutes held at the county seat. He is an able and forensic speaker, who will have a message in Donora that will doubtless be received with acclaim by his auditors.

The senator was to be the honor guest of the Washington Kiwanis club at the regular meeting of the club today at the George Washington hotel. He is an enthusiastic member of the Kiwanis, and was to make a brief address, but not of a political nature.

Senator Willis arrived in Washington this morning from the National capital, and was to address a political rally at the Tyler Tube and Pipe Company plant at the noon hour. This was to be an open air meeting, which promises to be well attended, as interest in the senator's coming, is at high ebb at the county seat. He was to spend the afternoon in Washington at the George Washington hotel, leaving at 6:30 o'clock for Donora, where he will speak in the Opera house at that place at 8 o'clock. At 7:30 o'clock on his arrival in Donora he will be informally received by the politicians and citizenry of Donora. He will be accompanied to Donora from Washington by Congressman Henry W. Temple, who will also make a brief address at the meeting in Donora tonight. No little interest is also being evinced in Congressman Temple's speech, inasmuch as he is a candidate for re-election.

LOCALS ARE READY FOR ROCHESTER HI.

With a blackboard talk scheduled for this evening at 7:30 preparations for the reception of Rochester High School Saturday will be concluded. Coach Stepanian will be able to throw his full strength against Grimm's successful team. The Rochester team with Douds, was defeated by Charleroi in 1923 by a 6-0 score. This year Jersey and Chlosser are their big men and will bear watching. The Charleroi team will have no alibis to offer if they taste defeat. Physically they are right; and if their mental attitude is right they should win. Cantoni is not in the best of shape, but will probably start. Feehan hurt his shoulder again Wednesday.

Supreme Court Dismisses The Election Appeal

The Supreme Court of Pennsylvania, sitting at Pittsburgh today, dismissed the appeal in the election contest of the nomination of Paul K. McCormick, successful Republican candidate for membership in the State Legislature from the Third District of Westmoreland County. The appeal had been taken by W. D. Hunter of Monessen, defeated candidate for that office, and its dismissal by the appellate court, before Paul K. McCormick and O. M. Deibler will be the Republican candidates for Representatives in the General Assembly from that district. The contest of McCormick's nomination was instituted by W. D. Hunter and others, who alleged failure to comply with certain election laws in the Wireton precinct, Rossaver Township. The successful candidate filed a motion to quash the contest proceedings which motion was granted by President Judge Charles D. Copeland of the Common Pleas Court of Westmoreland County. The contestants secured a certiorari to the Supreme Court and that body dismissed the proceedings.

The action of the appellate court was based on the fact that the appellants had presented their appeal at too late a time, inasmuch as the general election comes before the matter could be disposed of. The court indicated that a written opinion and decree would be handed down at a later date. Paul K. McCormick was represented by R. E. Best and Howard H. Whitehead, while Carroll Caruthers, S. W. Bierer and S. A. Kline appeared for the contestants.

Drink-Crazed Miner Still At Liberty—His Wife Is Living

Information from Bentleyville received here this morning was to the effect that William Lucas, the Cokeburg Junction miner, who cut and seriously wounded his wife while under the influence of liquor, moonshine, as chronicled in yesterday's Mail, has not been captured, although strenuous efforts are being put forth by detectives and other officers of the law to locate him and take him into custody.

Inquiry at the Memorial hospital, Monongahela, this morning, as to the condition of Mrs. Lucas elicited the information that "her condition was fairly good," but the probable outcome of her case would not be vouchsafed.

ROAD BOND ISSUE IS ASKED IN WESTMORELAND

Voters of Westmoreland county will be asked to approve a \$3,500,000 bond issue at the coming general election, November 4, the county commissioners announced yesterday. The issue will be used for highway construction of approved type, the announcement stated.

Steve Neruda, Aged 17 Years, Pulls Gun On Constable Ben Gibson—He Is Charged With Forcible Entry And Theft

SCHOOLHOUSE IS ENTERED

Monongahela Schoolhouse in Carroll Township, And a Large Stock of School Supplies, Consisting of Crayons, Paper, And Pencils, Etc., Taken

Vincent Neruda, a farmer residing on the Monongahela Country Club road, was arrested by Constable Ben Gibson of Monongahela yesterday afternoon on charges of forcible entry, stealing public property, pointing firearms with intent to kill and resisting arrest. Vincent Neruda, father of the boy, has also been arrested on a charge of illegal manufacture and possession of intoxicating liquor. Both are being held.

Last Sunday night the Alexander schoolhouse in Carroll township, near the Neruda home, was entered by forcing a window and a large stock of school supplies consisting of crayons, paper, pencils, etc., was stolen. School authorities instituted an investigation the next morning and the finger of suspicion pointed to young Neruda. Yesterday morning a search warrant was issued and Constable Gibson and City Patrolman W. R. Hughes of Monongahela visited the Neruda home where the suspect was questioned, but denied any connection with the robbery. The officers entered the house and as they did so Mrs. Neruda, mother of the boy, seized a 10-gallon still which was in action in the kitchen and threw it out the back door. The officers saw and took possession of the apparatus. Hughes remained outside the house in an attempt to assemble the broken parts which were to be used as evidence while Constable Gibson entered the house. Closing the door behind him he turned around to find himself gazing into the muzzle of a shotgun held in the hands of the youthful Neruda. The officer did not comply with the boy's command to put up his hands, but dodged behind a partition which separated the kitchen and dining room. With threats that he would first kill Gibson and then finish Hughes when he entered the door, the boy started after Gibson, who by this time had drawn his revolver and was on even terms with the young man. Gibson started after the boy, who disappeared into the pantry adjoining the kitchen. Here there was considerable action with both alternately chasing the other. Neruda finally cornered Gibson and the officer was forced to fire. One bullet lodged in the floor and the second crashed through the stock of the gun. The weapon fell to the floor and Neruda was placed under arrest. The older Neruda was arrested later when he arrived at the house from a field where he was working and came to investigate the shooting. He is held on the liquor charge. The situation which the constable faced was a serious one and required plenty of treatment. He stated that the boy was in a highly nervous state, which increased the danger. Keeping up a brisk line of talk gave Gibson his only margin of safety, he said.

TWO WORKMEN IN HOSPITAL AS ACCIDENT VICTIMS

Edward Davis, aged 22, of Bentleyville, and William Foree, aged 30 of Charleroi, are patients in the Charleroi-Monessen hospital as a result of the injuries received yesterday afternoon and this morning while at work on the construction of the Charleroi-Bentleyville road.

Edward Davis, working for the Colonial Construction company is suffering a badly crushed left leg. He was taken to the local hospital yesterday afternoon at 4:30 an hour and a half after the accident.

William Foree, whose home is in Tennessee, but who now resides in Charleroi, working for another construction company, early this morning while cranking his truck was pinned between it and another truck when the vehicle started forward. He was removed to the hospital at 7 o'clock, one hour after he started to work and for a time it was believed he suffered a fractured pelvic bone, but when x-rayed the injured place revealed torn ligaments.

Senators Surprise The
Nation By Deadlocking
With Giants Yesterday

Throwing back the Giant assault in the greatest and best played game of the series, the Senators again proved their gameness and toughness yesterday when they kept themselves in the big test and brought the decision on the world's title right down to the last battle today.

Their friends didn't think it was in them, but Jezebel Tecumseh Zachary, thought differently. He repeated the great battle he turned in on Sunday when the Senators won and tied the series for the first time. He used the same floating curve, varied with a blinding "fast one," and the Giants, while they outbit the Senators in the matter of safe drives, couldn't get started after the first inning.

The score by innings:
New York . . . 1 0 0 0 0 0 0 0—1
Washington . . . 0 0 0 0 2 0 0 0 x—2

FIRE ENGINES

USED TO PUMP

BOOZE INTO SEWERS

Philadelphia, Oct. 10.—Fire engines are the latest innovation here when police descend on "moonshiners row" in South Philadelphia.

Raids were conducted on four houses in the "row" and the police requested the fire department to send an engine to the dwellings at once. Up to the dwellings clanged the engine. The firemen hopped off and started looking for the blaze.

The police explained that the engine was needed to pump moonshine liquor and mash from the four houses into nearby sewers. The pump was put to work and hundreds of dollars worth of bootleg stock was destroyed.

The firemen later helped the police to dismantle a number of stills found in the four houses.

ZIVIC STOPS

JOHNNY DARCY

IN SIX ROUNDS

Jack Zivic, Pittsburgh's leading lightweight, weighing 138 1-2, scored a technical knockout over Johnny Darcy, substitute for Archie Walker, last night in the sixth round of their scheduled 12-round bout at the Rink Sporting Club in Brooklyn. Zivic, in winning his second straight bout by a knockout proved that he could make the lightweight requisite without feeling any loss of strength. In his last bout with Archie Walker, which Zivic also won by a knockout, he entered the ring overweight and was called down by the boxing commission.

In the fifth round, Jack got Darcy on the ropes and hammered away until Darcy was ready to drop. At the end of the fifth session it was only a matter of time as to when Darcy would go down. Zivic opened the sixth with a left hook and then cracked a wicked right to the body sending Darcy down for the count of eight. Darcy arose gamely but staggered across the ring and nearly fell through the ropes. Zivic stepped away thinking the referee would stop the bout, but almost immediately tore again into Darcy with hooks and jabs until Darcy was out on his feet and the bout was stopped.

Light Influences Color

Some curious observations made in Manchester, England, indicate that light and temperature may have a determining influence on the colors of flowers in different months. The investigator observed a tropaeolum, or nasturtium plant, which showed three types of flowers—yellow, yellow with red markings and claret-colored. Sometimes one type predominated and sometimes another. In the spring of this plant he noticed that the parti-colored and red flowers occurred only during fine, hot weather, in the second week of August, whereas during the cold, wet periods of July, September and October all the flowers were yellow. By self-sterilizing the flowers of different colors he found that in the second generation the color of the parental flower had no determining effect, and he concludes that temperature and light are the governing influences.

Lovers used to hang over the front gate. Now they hang over the telephone line.

Blood Money

"Blood money" was a term applied in the Middle Ages to the money paid for bloodshed. It might be either the compensation paid by a manslayer to the nearest relatives of the victim, to secure himself and his kin from vengeance, or the money paid by a manslayer for bringing about the death of another, directly or through evidence.

It was once common among the Scandinavian and Teutonic peoples, who called this money payment wer-gild, and the custom still is practiced in Arabia.

The price varied with the nature of the crime and the rank of the victim. Certain crimes, such as the slaying of a sleeping person, could not be compensated by a money payment; such criminals were declared outlaws and could be slain with impunity.

The term is now applied to the reward or bribe for giving up a criminal to justice.—Detroit News.

Capital, as far as a newspaper editor is concerned, is that which he has to give his note for.

DARROW ON LAW.
Clarence S. Darrow, one of Chicago's famous lawyers, who gained further renown by his defense of the Chicago boy murderers, amazed people of Chicago at a banquet in which he said that while the eighteenth amendment never would be repealed, "it will die because people of courage and independence will stand against it," and because it "cannot be enforced." Darrow is trying to deliver Chicago from foreign bootleggers and poisonous liquors.

In the days of the open saloon men died from the effects of alcohol, and they are dying today from the effects of the concoctions which they imbibe. It was not safe in the old days to drink booze and it is not safe today. The only "safe" man is the fellow who eschews it in every manner, shape, and form.

The proposition of Mr. Darrow's that the amendment will die because it cannot be enforced, is illogical; there are plenty of laws that are not enforced—they are transgressed, but they do not die for lack of enforcement.

BOYS AND TRUCKS.
The police arrested five boys the other day for "hopping" trucks. This practice is a bad one, inasmuch as it is guilty of the habit are careless in dropping from the trucks, and lay themselves liable to death and injury by machines in the rear, the drivers of which very oft are unable to avoid accident.

If you see a boy "jumping" a truck, call the driver's attention to it, so that he may order the boy for his own safety from the machine; and parents and the teachers of the schools will act with wisdom in telling boys the dangers which accrue from the practice.

BILL AND CHARLES? NAY, NAY.
Senator Weller of Maryland declares the nomination of Bryan has given the state to the Republicans. That will be found true in a number of the so-called border states. The radicalism of Governor Bryan, coupled with the influence that his thrice-repudiated brother exerts upon him, is sufficient to alienate the support of conservative Democrats from their party ticket. It is coming to be generally recognized that the position of Bryan on the ticket is a distinct asset for the Republicans.

The pointed old saying, "there is no royal road to learning," is perhaps too well worn to please the president of Dartmouth college, who announces that "we can not transmit education on platters of silver to those unselective of accepting it or to those passively indifferent." Such circumlocution and padding take much of the punch out of the original, but the meaning is about the same.

The "Fighting Bobs," an organization of women with bobbed hair who are determined to elect "Fighting Bob" La Follette, have not promised to "wear it long" ever after in case they fail, in the manner of several whispered partisans in the past who vowed to eschew the shears "or ever if the election disappointed them."

It is stated that there are now more motor cars than farms in all but seven of our states, New York for example, having 103,195 farms as compared with 1,103,332 registered cars. But it would be more interesting to know how many of the farms have been mortgaged to pay for the automobiles.

The Republican nomination for Governor of New York came to Theodore Roosevelt Jr. when he was 41 and to Theodore Roosevelt, Jr., when he was 37, their comparative youth when so honored being the chief resemblance thus far exhibited between father and son.

The world-fliers received a larger and warmer welcome than did some of the 400,000 who journeyed to California to see the world-fliers who played no

WHY SUFFER SO?
Get Back Your Health as Other Charleroi Folks Have Done.

Too many people suffer lame, aching backs, distressing kidney disorders and rheumatic aches and pains. Often this is due to faulty kidney action and there's danger of hardened arteries, dropsy, gravel or Bright's disease. Don't let weak kidneys wear you out. Use Doan's Pills before it is too late! Doan's are a stimulant diuretic to the kidneys. Doan's have helped thousands. They should help you. Here is one of many Charleroi cases. Mrs. S. Humphries, 109 Fallowfield Ave., says: "I was all in with backache and dizzy spells. My head ached all the time and my back pained so when I tried to straighten I could hardly move. My kidneys were weak, too. I used Doan's Pills and they rid me of the trouble." (Statement given December 23, 1913.) On March 16, 1922, Mrs. Humphries added: "Doan's fixed me up in fine shape and I have had no occasion to use them since." 60c, at all dealers. Foster-McIlburn Co., Mfrs., Buffalo, N. Y.

We Ask Men
To Protect Their Hair
By Edna Wallace Hopper
I speak for all women when I say that we want men to keep their looks. And above all, their hair.
The women do that. You would never forgive us if we did not. We beg you to follow our example.
My whole career on the stage has depended largely on my hair. So, many years ago, I went to France and secured the best hair helps kept up with every new discovery.
The result is my hair as you see it. It is thick and lustrous, finer far than forty years ago. I have never had falling hair or dandruff, and never a touch of gray. Now countless women who use what I use are attaining like results.
I am offering to women the best I have found, and men are also welcome. My Hair Youth combines the utmost that modern science knows. I am sure that no one knows anything for the hair which does what this combination does.
I apply it with an eye dropper directly to the scalp. Applying tonics to the hair is ridiculous. The whole thing lies in the scalp, in the roots, and there my Hair Youth goes. It combats the hardened oil and dandruff which stifle the hair roots. It tones and stimulates the scalp. Hair thrives on such soil as flowers thrive on. The method.
I believe that my Hair Youth now combines the greatest hair helps in existence. I have never seen anything else which brought comparable results.
Now I have placed it in every drug store, on every toilet counter. All who use it are justified. The name is Edna Wallace Hopper's Hair Youth. It will amaze and delight you. I authorize every dealer to return the price to anyone who claims the slightest disappointment.
Write me for my Beauty Book and I'll send with it something else to please you.

Bad Luck and the Devil Pursued Him

"I don't think anyone has had more bad luck and sickness than I have. In 1905 I had two ribs, an arm and collar bone broken in a railroad accident. Then I had pneumonia. After recovering I crossed a pasture, when a bull chased me and tossed me over the fence and broke my right leg. In 1910 I had typhoid fever; since then severe stomach and liver trouble, which no medicine or doctor touched until two years ago I got a bottle of Mayr's Wonderful Remedy, which proved the first ray of light in thirteen years." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

CALUMET THE WORLD'S GREATEST BAKING POWDER

"My bakings used to be a matter of 'hit or miss'—sometimes they were successful; then again a total failure, no matter how hard I tried. But that was before a friend persuaded me to try Calumet. Now I know what the result will be—what to expect every time—perfectly raised, uniformly baked foods. Bake day is really a delight."

Baking Powder plays an important part in the success or failure of your baking. The great American housewives all realize this. They have found by experience that a better leavener is not, and cannot be made—that for nutritious and wholesome foods it has no equal.

Calumet is made in the World's largest baking powder factories; human hands never touch it.

LESSON NO. 2

LIGHTING THE KITCHEN

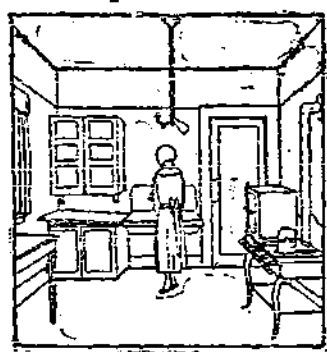

It may seem a bit odd to start with the kitchen instead of with the living room for our lighting lessons, but the kitchen is a room of importance. A home may be built without a sun room or a living room, but without a kitchen, never!

And this is the room in our home where somebody must work a good many hours each day. In most families that somebody is likely to be Mother. Winter mornings there's breakfast to get by electric light. There's always kitchen work to do after dark in the evening and there are gloomy days when artificial light is necessary almost all day long in the kitchen.

Factory work rooms are compelled by law to be at least reasonably well lighted, but the work room of the home, the kitchen, often is very badly lighted just because Mother never has complained about it.

To be well lighted, there should be a flood of soft, even light in the kitchen that gets into every nook and corner. When you stand at the sink while washing the dishes, there should be no deep, dark shadows on the dishes. It should be impossible to "stand in your light" so as to throw a dense shadow on your work anywhere in the room. You should be able to open the oven door and actually see in.

Many kitchens are lighted with a fixture light like the one shown in this picture. No kitchen can be

well lighted with this old style lighting equipment. In spite of everything you do, it will always make bad shadows, because the bulb is so low that you can't help throwing your own shadow in front of you. There's only one cure—take it out.

Proper light for the kitchen means a 100-watt clear bulb or 150-watt daylight or blue bulb, put close up to the ceiling so that there will be a minimum of shadow. To soften the light, it should be surrounded by a dense milk-white, all enclosing, glass globe. Preferably this piece of glassware should be flattened out a little in shape in order to spread the light well over the room. This is shown in the next picture.

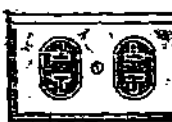

Changing the old style fixture to this modern kitchen light will make a surprising difference in the appearance of the kitchen and in the ease with which kitchen work may be done.

In order to be sure that there is plenty of light at the sink, and no bad shadows, it is usually well to provide in addition to the light at the ceiling, a bracket fixture on the wall over the sink, or, if that is not possible, another light hung from the ceiling, which will be over the sink. This light should be just high enough above the sink to be out of the way. This fixture should have a deep, open bottom, dense milk-white glass shade. It may have an insulated pull chain switch. In some kitchens a fixture like this may be needed over the kitchen stove.

Just as a 100-watt lamp bulb in the ceiling fixture will give proper lighting, so a 50-watt white bulb is excellent for the fixture over the sink or the stove. Some people prefer a 150-watt daylight or blue bulb in the center fixture and a 75-watt daylight or blue bulb in the fixture over the sink or stove. The use of daylight or blue bulbs makes a well kept kitchen look even more spick and span and gives to it, night or day, a daylight cheerfulness.

When using an electric iron or any other appliance, we need all the light we can get. Therefore, it is not a good thing to remove a bulb to connect the iron. Have a convenience outlet just like this

in the wall near the table, about 35 inches or more above the floor.

THE SCREEN HAS A NEW EXPOSE
"Wine," Universal-Jewel coming to the Majestic on Monday, and will have a three-day visualization, is the screen mission of one of the most sensational works of recent fiction. It is a Coc-mopolitan magazine story of the same name written by William MacLarg, who devoted his talents to a scathing expose of the manner in which the prohibition laws of the nation are flagrantly violated by men and women of breeding education and high social position.

Universal entrusted the port-rayal of the story to a cast of drawing proven talent Clara Bow, Forrest tanley, Huntly Gordon, Myrtle Sted-man, Robert Agnew, Walter Long, Leo White and Grace Carlisle. Louis Gasnier directing.

Principal among the spectacular features of the screen story are a number of cafe scenes, where throngs of fashionably gowned women ap-plaud the efforts of professional en-tertainers. In fact the extras wit-ness just as fine an entertainment as they could have found in a real cafe, for the beautiful girls who danced in screen version of "Wine," were re-cruited from those who make their living doing the same thing in the cafes of Los Angeles and Hollywood.
